Modelling Rule

The total-noun list contains noun phrases explicitly extracted from the usage scenario. The solution-space list is a subset containing nouns represented or used by the proposed system. A solution-space noun passes General Classification when it satisfies at least three classifications or satisfies External Entity by itself. Only GC-passed nouns are evaluated by the Selection Criteria. A GC candidate passes SC when it satisfies at least three criteria or satisfies Essential Requirement. No separate merge stage is used; accepted source nouns are standardized into class names during finalization.

1. List of Total Nouns

The following 250 nouns and noun phrases are extracted from the usage scenario. They are listed before deciding whether the proposed system will represent or use them.

No.	Noun
1	Ramna Yoga Society Management System
2	System
3	Digital support
4	Membership
5	Attendance

Total extracted nouns: 250.

2. List of Nouns in Solution Space

The following 154 nouns are selected from the total-noun list because they are represented or used by the system as potential classes, roles, attributes, records, values, relationships, interface information, or method concepts. The 96 total nouns not included here are implicitly problem-space nouns; they are mentioned in the scenario but are not retained as system concepts.

No.	Solution-space noun
1	Account
2	Member
3	Yoga Instructor
4	Authorized committee member
5	President
6	Secretary
7	Treasurer
8	Publicity Secretary
9	Cultural Secretary

150	Quantity
151	Condition
152	Purchase information
153	Storage location
154	Equipment return

Solution-space result: 154 of 250 nouns are retained in the solution space.

3. General Classifications (GC)

All 154 solution-space nouns are considered. A noun passes GC when it satisfies at least three classifications, or when it satisfies External Entity by itself. The 50 passing nouns are shown individually below; the remaining 104 stay available as attributes, records, values, relationships, interface information, or method concepts.

3.1 Seven General Classifications

No.	General Classification	Description
1	External entities	People, organizations, devices, or external services that exchange information with the system.
2	Things	Physical or informational objects that the system stores, manages, or manipulates.
3	Events	Occurrences, transactions, or lifecycle changes that the system must recognize or record.
4	Roles	Capacities performed by people or software actors.
5	Organizational units	Groups or functional management units with coordinated responsibilities.
6	Places	Physical or logical locations relevant to system interaction.
7	Structures	Composite records, aggregates, hierarchies, or organized information structures.

3.2 Nouns Passing General Classification

No.	Solution-space noun	Accepted GC	Count	Result
1	Account	2, 4, 7	3	Pass
2	Member	1	1	Pass
3	Yoga Instructor	1	1	Pass
4	Authorized committee member	1	1	Pass
5	President	1	1	Pass
6	Secretary	1	1	Pass
7	Treasurer	1	1	Pass
8	Publicity Secretary	1	1	Pass
9	Cultural Secretary	1	1	Pass
10	Field and Equipment Secretary	1	1	Pass
11	Committee activity	2, 3, 7	3	Pass
12	Regular yoga session	2, 3, 7	3	Pass
13	Event	2, 3, 7	3	Pass
14	Financial management	2, 3, 5, 7	4	Pass
15	Supported payment facility	1, 2, 7	3	Pass
16	Activity post	2, 3, 7	3	Pass
17	Yoga content	2, 3, 7	3	Pass
18	AI Yoga Knowledge Assistant	1, 2, 4, 7	4	Pass
19	General participant	1	1	Pass
20	Membership applicant	1	1	Pass
21	Applicant	1	1	Pass
22	Registered member	1	1	Pass
23	Authorized user	1	1	Pass
24	General visitor	1	1	Pass
25	Executive Committee	1, 5, 7	3	Pass
26	Membership	2, 3, 7	3	Pass
27	Membership application	2, 3, 7	3	Pass
28	Membership registration	2, 3, 7	3	Pass
29	Event registration	2, 3, 7	3	Pass
30	Event participation	2, 3, 7	3	Pass
31	Attendance	2, 3, 7	3	Pass
32	Attendance record	2, 3, 7	3	Pass
33	Payment	2, 3, 7	3	Pass
34	Registration payment	2, 3, 7	3	Pass

No.	Solution-space noun	Accepted GC	Count	Result
35	Donation	2, 3, 7	3	Pass
36	Membership creation	2, 3, 7	3	Pass
37	Financial report	2, 3, 7	3	Pass
38	Notice	2, 3, 7	3	Pass
39	Yoga video	2, 3, 7	3	Pass
40	Equipment management	2, 3, 5, 7	4	Pass
41	Equipment assignment	2, 3, 7	3	Pass
42	Committee membership	2, 3, 4, 5, 7	5	Pass
43	Committee administration	2, 3, 4, 5, 7	5	Pass
44	Attendance management	2, 3, 5, 7	4	Pass
45	Session management	2, 3, 5, 7	4	Pass
46	Event management	2, 3, 5, 7	4	Pass
47	Member dashboard	2, 6, 7	3	Pass
48	Member engagement	2, 3, 7	3	Pass
49	Automatic system interaction	2, 3, 7	3	Pass
50	System appearance	2, 3, 7	3	Pass

GC result: 50 of the 154 solution-space nouns pass General Classification.

4. Selection Criteria (SC)

Only the 50 GC-passed nouns are evaluated. A candidate passes when it satisfies at least three criteria or satisfies Essential Requirement. Eighteen candidates pass and are standardized into the final class names; thirty-two fail as independent classes but may still contribute attributes, records, or behaviour to a selected class.

4.1 Six Selection Criteria

No.	Selection Criterion	Description
1	Retained Information	Information about the candidate must be remembered by the system.
2	Needed Services	The candidate provides identifiable services required by the system.
3	Multiple Attributes	The candidate needs several meaningful attributes.
4	Common Attributes	Instances or related subclasses share attributes.
5	Common Operations	Instances or related subclasses share operations.
6	Essential Requirement	An independent class is essential to satisfy the requirement.

4.2 Selection-Criteria Results

No.	GC-passed noun	Accepted SC	Points	Result	Final class
1	Account	1, 2, 3, 4, 5, 6	6	Pass	`UserAccount`
2	Member	1, 2, 3, 4, 5, 6	6	Pass	`Member`
3	Yoga Instructor	1, 2, 3, 5, 6	5	Pass	`YogaInstructor`
4	Authorized committee member	1, 2, 3, 4, 5, 6	6	Pass	`ExecutiveCommitteeMember`
5	President	1, 2, 3, 5, 6	5	Pass	`President`
6	Secretary	1, 2, 3, 5, 6	5	Pass	`Secretary`
7	Treasurer	1, 2, 3, 5, 6	5	Pass	`Treasurer`
8	Publicity Secretary	1, 2, 3, 5, 6	5	Pass	`PublicitySecretary`
9	Cultural Secretary	1, 2, 3, 5, 6	5	Pass	`CulturalSecretary`
10	Field and Equipment Secretary	1, 2, 3, 5, 6	5	Pass	`FieldEquipmentSecretary`
11	Committee activity	1, 2, 3, 4, 5, 6	6	Pass	`Activity`
12	Regular yoga session	1, 2, 3, 4, 5, 6	6	Pass	`YogaSession`
13	Event	1, 2, 3, 4, 5, 6	6	Pass	`Event`
14	Financial management	1, 2, 3, 4, 5, 6	6	Pass	`FinancialManagement`
15	Supported payment facility	2, 3, 5, 6	4	Pass	`PaymentGateway`
16	Activity post	1, 2, 3, 4, 5, 6	6	Pass	`MediaPost`
17	Yoga content	1, 2, 3, 4, 5, 6	6	Pass	`YogaContent`
18	AI Yoga Knowledge Assistant	1, 2, 3, 5, 6	5	Pass	`VajraAssistant`
19	General participant	2	1	Fail	-
20	Membership applicant	2, 3	2	Fail	-
21	Applicant	2, 3	2	Fail	-
22	Registered member	1, 3	2	Fail	-
23	Authorized user	2, 3	2	Fail	-
24	General visitor	2	1	Fail	-
25	Executive Committee	1, 3	2	Fail	-
26	Membership	1, 3	2	Fail	-
27	Membership application	1, 3	2	Fail	-
28	Membership registration	2, 3	2	Fail	-
29	Event registration	1, 3	2	Fail	-
30	Event participation	1, 3	2	Fail	-
31	Attendance	1, 3	2	Fail	-
32	Attendance record	1, 3	2	Fail	-
33	Payment	1, 3	2	Fail	-
34	Registration payment	1, 3	2	Fail	-

No.	GC-passed noun	Accepted SC	Points	Result	Final class
35	Donation	1, 3	2	Fail	-
36	Membership creation	2	1	Fail	-
37	Financial report	1, 3	2	Fail	-
38	Notice	1, 3	2	Fail	-
39	Yoga video	1, 3	2	Fail	-
40	Equipment management	2, 3	2	Fail	-
41	Equipment assignment	1, 3	2	Fail	-
42	Committee membership	1, 3	2	Fail	-
43	Committee administration	2, 3	2	Fail	-
44	Attendance management	2, 3	2	Fail	-
45	Session management	2, 3	2	Fail	-
46	Event management	2, 3	2	Fail	-
47	Member dashboard	2, 3	2	Fail	-
48	Member engagement	2, 3	2	Fail	-
49	Automatic system interaction	2, 5	2	Fail	-
50	System appearance	2, 3	2	Fail	-

SC result: 18 candidates pass and become the 18 final classes. Thirty-two candidates fail as independent classes.

5. Associated Noun and Verb Identification

Associated nouns indicate candidate attributes and relationships; associated verbs indicate candidate methods and responsibilities. The list remains domain-oriented and excludes framework, controller, and database implementation operations.

No.	Selected class	Associated nouns	Associated verbs
1	UserAccount	account identifier, username, password hash, account status, access permission, last login time	authenticate, log in, log out, change password
2	Member	member identifier, full name, contact information, photograph, date of birth, verification status, registration payment status, membership number, membership status, QR code, membership card, registration date, membership start date	register for membership, record verification, record registration payment, activate membership, generate membership number, generate QR code, issue card, update and view profile, view membership status, pay fee, donate, register for event, view attendance and financial histories, view activities, view media posts, view yoga content
3	YogaInstructor	instructor identifier, full name, contact information, expertise, yoga pose, instruction, difficulty, risk, precaution, video	create content, update content, add pose instruction, set difficulty, add risk, add precaution, attach demonstration video
4	ExecutiveCommitteeMember	committee member identifier, member, committee term, committee status, membership application, attendance, activity, summary, system permission	view membership application, verify member information, dismiss membership application, view activity, record QR attendance, record manual attendance, generate summary, view directory, manage committee term, access administration
5	President	president role, committee term, financial report, attendance summary, overdue member, committee activity, club operation	review report, review attendance, view overdue members, take action for overdue members, monitor committee, supervise operation
6	Secretary	secretary role, committee term, committee record, schedule, attendance summary, administrative activity	maintain record, coordinate schedule, review attendance, monitor administration
7	Treasurer	treasurer role, membership application, offline membership payment, donation, income, expense, balance, financial report, event financial details, overdue membership	view membership application, record offline membership payment, record donation, record income, record expense, view event financial details, generate report, identify overdue membership
8	PublicitySecretary	publicity role, notice, announcement, activity post, media, attachment, audience, visibility	create post, publish notice, publish activity media, update post, archive post

No.	Selected class	Associated nouns	Associated verbs
9	CulturalSecretary	cultural role, event, registration, registered member, event instruction, event financial details, event publicity request	view event, create event, update event, open and close registration, view registered members, submit event financial details, request event publicity
10	FieldEquipmentSecretary	field role, equipment catalogue, availability record, equipment assignment, return record	add equipment, update equipment, remove equipment, check availability, assign equipment, record return
11	Activity	activity identifier, title, date, start time, location, status, organizer, participant, attendance entry	schedule, reschedule, cancel, add organizer, record attendance, summarize attendance, list participant
12	YogaSession	session, instructor, duration, regular-session status, schedule	assign instructor, open session, close session, publish schedule
13	Event	event type, description, instruction, registration status, registered member, participation information	open registration, register member, remove registration, close registration, publish participation information
14	FinancialManagement	membership payment, donation, income entry, expense entry, balance, report, payment history, donation history	record payment, record donation, record income, record expense, calculate balance, reconcile transaction, generate report, retrieve history
15	PaymentGateway	gateway name, supported method, availability, payment request, transaction reference, transaction status, confirmation	process payment, verify transaction, confirm payment, obtain status
16	MediaPost	post identifier, post type, title, body, attachment, visibility, audience, publish date, related activity	create, update, publish, set audience, attach media, archive, link activity
17	YogaContent	content identifier, content type, title, instruction, difficulty, risk, precaution, video reference, visibility, approval status, author	create, update, add instruction, set difficulty, add risk, add precaution, attach video, publish, search
18	VajraAssistant	approved content source, question, interpreted topic, answer, suggestion, safety disclaimer	interpret question, search approved content, generate answer, suggest related content, attach safety disclaimer

6. Attribute Selection

Attributes are selected from the associated nouns and refined to avoid duplication. Subclasses inherit shared attributes from their superclasses. Collection-like attributes represent contained records without introducing unnecessary standalone classes at this level.

No.	Class	Selected attributes
1	UserAccount	accountId username passwordHash accountStatus accessPermissions lastLoginAt
2	Member	memberId fullName contactInformation photograph dateOfBirth verificationStatus registrationPaymentStatus membershipNumber membershipStatus qrCode cardInformation registrationDate membershipStartDate account
3	YogaInstructor	instructorId fullName contactInformation expertise account authoredContent

7. Method Identification

Methods are derived from associated verbs and assigned to the class that owns the required information. The method list describes domain behaviour; validation and persistence helpers are intentionally omitted.

No.	Class	Identified methods
1	UserAccount	authenticate() login() logout() changePassword()
2	Member	static registerForMembership() markInformationVerified() recordRegistrationPayment() activateMembership() generateMembershipNumber() generateQRCode() issueMembershipCard() updateProfile() payFee() donate() registerForEvent() viewProfile() viewMembershipStatus() viewAttendanceHistory() viewMediaPosts() viewPaymentHistory() viewDonationHistory() viewUpcomingActivities() viewYogaContent()
3	YogaInstructor	createYogaContent() updateYogaContent() addPoseInstructions() setDifficultyLevel() addRiskAndPrecaution() attachDemonstrationVideo() viewAssignedSessions()
4	ExecutiveCommitteeMember	viewMembershipApplication() verifyMemberInformation() dismissMembershipApplication() viewActivity() recordAttendanceByQR() recordAttendanceManually() generateAttendanceSummary() viewMemberDirectory() manageCommitteeTerm() createActivity() updateActivity()
5	President	reviewFinancialReport() reviewAttendanceSummary() viewOverdueMembers() takeActionForOverdueMembers() monitorCommitteeActivities() superviseClubOperations()
6	Secretary	maintainCommitteeRecord() coordinateSchedule() reviewAttendanceSummary() monitorAdministrativeActivities()

No.	Class	Identified methods
7	Treasurer	recordMembershipPayment() recordDonation() recordIncome() recordExpense() viewEventFinancialDetails() generateFinancialReport() identifyOverdueMemberships()
8	PublicitySecretary	createMediaPost() publishNotice() publishActivityMedia() updatePost() archivePost() setTargetAudience()
9	CulturalSecretary	viewEvents() createEvent() updateEvent() openEventRegistration() closeEventRegistration() viewRegisteredMembers() submitEventFinancialDetails() requestEventPublicity()
10	FieldEquipmentSecretary	addEquipment() updateEquipment() removeEquipment() checkAvailability() assignEquipment() recordReturn()
11	Activity	schedule() reschedule() cancel() addOrganizer() recordAttendance() generateAttendanceSummary() listParticipants()
12	YogaSession	assignInstructor() openSession() closeSession() publishSessionSchedule()
13	Event	openRegistration() registerMember() removeRegistration() closeRegistration() publishParticipationInformation() listRegisteredMembers()
14	FinancialManagement	recordPayment() recordDonation() recordIncome() recordExpense() calculateBalance() reconcileTransaction() generateFinancialReport() getPaymentHistory() getDonationHistory() identifyOverdueMemberships()
15	PaymentGateway	processPayment() verifyTransaction() confirmPayment() getTransactionStatus() mapGatewayResponse()

No.	Class	Identified methods
16	MediaPost	create() update() publish() setAudience() attachMedia() archive() linkActivity()
17	YogaContent	create() update() addInstructions() setDifficulty() addRisk() addPrecaution() attachVideo() publish() search()
18	VajraAssistant	interpretQuestion() searchApprovedContent() generateAnswer() suggestRelatedContent() attachSafetyDisclaimer() clearConversationContext()

8. Finalizing Classes

The selected classes are finalized by checking responsibility placement, inheritance opportunities, and unnecessary duplication.

1. Authentication separation. Account credentials, status, and permission behaviour are centralized in `UserAccount`. `Member`, `YogaInstructor`, and `ExecutiveCommitteeMember` collaborate with it instead of duplicating authentication data.
2. Membership lifecycle. `Applicant`, `MembershipRegistration`, and `MembershipApplication` are not retained as separate classes. `Member` represents both pending and active membership states. The public `Member.registerForMembership(...)` operation creates the pending member record without requiring an account or login. The model has no separate submission, correction, or application-status-viewing operation.
3. Verification and activation rule. An `ExecutiveCommitteeMember` views the pending membership application and either verifies its information or dismisses it. Incorrect information is dismissed rather than returned for correction. Registration payment occurs only after verification. `PaymentGateway` confirms online payment automatically, while the Treasurer records an accepted offline payment. Once verification and payment are both recorded, the system invokes `activateMembership()`, `generateMembershipNumber()`, `generateQRCode()`, and `issueMembershipCard()` on the pending `Member` record. There is no separate formal approval operation.
4. Committee hierarchy. `ExecutiveCommitteeMember` is a concrete superclass representing general executive members. `President`, `Secretary`, `Treasurer`, `PublicitySecretary`, `CulturalSecretary`, and `FieldEquipmentSecretary` specialize it because they have distinct permissions and methods.
5. Activity hierarchy. `Activity` is abstract and contains shared schedule, organizer, participant, and attendance behaviour. `YogaSession` and `Event` are its concrete subclasses.
6. Attendance placement. `Attendance` and `AttendanceRecord` are absorbed into `Activity` as `attendanceEntries` and attendance operations. A separate Attendance class would duplicate the activity context.
7. Event participation. `EventParticipation` and `EventRegistration` are absorbed into `Event` as `registeredMembers`, `participationInformation`, and registration methods.
8. Financial consolidation. `FinancialTransaction`, payment, donation, income, expense, and reports are maintained by `FinancialManagement`. `PaymentGateway` remains separate because it represents the external payment boundary.
9. Communication consolidation. Notice, announcement, activity post, and event media share publication attributes and operations and are merged into `MediaPost`.
10. Yoga knowledge consolidation. Pose information, instructions, risks, precautions, and videos are consolidated in `YogaContent`. `VajraAssistant` remains separate because it provides conversational retrieval and safety guidance.
11. Equipment responsibility. Equipment catalogue, availability, assignment, and return information are owned directly by `FieldEquipmentSecretary`; a separate inventory-management class would duplicate that role. Operational tasks, task tracking, and `HelpingHand` are not retained in this high-level model.
12. Presentation and automation. `MemberDashboard`, `SystemAppearance`, and general `SystemAutomation` are boundary or presentation behaviours rather than independent domain classes.

13. Role-specific workflow. The `CulturalSecretary` manages events, submits event financial details to the `Treasurer`, and requests event publicity. The `Treasurer` records the resulting financial entries, while the `President` reviews overdue members and takes organizational action when required.

8.1 Final Class List

1. `UserAccount`
2. `Member`
3. `YogaInstructor`
4. `ExecutiveCommitteeMember`
5. `President`
6. `Secretary`
7. `Treasurer`
8. `PublicitySecretary`
9. `CulturalSecretary`
10. `FieldEquipmentSecretary`
11. `Activity`
12. `YogaSession`
13. `Event`
14. `FinancialManagement`
15. `PaymentGateway`
16. `MediaPost`
17. `YogaContent`
18. `VajraAssistant`

Final class count: 18.

9. Class Cards

Each card records the selected attributes and methods, followed by the class responsibilities and principal collaborators.

9.1 UserAccount

Attributes

- accountId
- username
- passwordHash
- accountStatus
- accessPermissions
- lastLoginAt

Methods

- authenticate()
- login()
- logout()
- changePassword()

Responsibilities

- Authenticate users
- Maintain account status
- Enforce role-based access

Collaborative Classes

- Member
- YogaInstructor
- ExecutiveCommitteeMember

9.2 Member

Attributes

- memberId
- fullName
- contactInformation
- photograph
- dateOfBirth
- verificationStatus
- registrationPaymentStatus
- membershipNumber
- membershipStatus
- qrCode
- cardInformation
- registrationDate
- membershipStartDate
- account

Methods

- static registerForMembership()
- markInformationVerified()
- recordRegistrationPayment()
- activateMembership()
- generateMembershipNumber()
- generateQRCode()
- issueMembershipCard()
- updateProfile()
- payFee()
- donate()
- registerForEvent()
- viewProfile()
- viewMembershipStatus()
- viewAttendanceHistory()
- viewMediaPosts()
- viewPaymentHistory()
- viewDonationHistory()
- viewUpcomingActivities()

- `viewYogaContent()`

Responsibilities

- Register for membership
- Maintain member identity and status
- Make payments and donations
- Participate in events
- Access profile, membership, attendance, financial, activity, media, and yoga-content information

Collaborative Classes

- `UserAccount`
- `ExecutiveCommitteeMember`
- `Activity`
- `Event`
- `FinancialManagement`
- `MediaPost`
- `YogaContent`

9.3 YogaInstructor

Attributes

- instructorId
- fullName
- contactInformation
- expertise
- account
- authoredContent

Methods

- createYogaContent()
- updateYogaContent()
- addPoseInstructions()
- setDifficultyLevel()
- addRiskAndPrecaution()
- attachDemonstrationVideo()
- viewAssignedSessions()

Responsibilities

- Provide yoga instruction
- Author safe yoga content
- Maintain professional information

Collaborative Classes

- UserAccount
- YogaSession
- YogaContent

9.4 ExecutiveCommitteeMember

Attributes

- committeeMemberId
- member
- termStartDate
- termEndDate
- committeeStatus
- account
- assignedPermissions

Methods

- viewMembershipApplication()
- verifyMemberInformation()
- dismissMembershipApplication()
- viewActivity()
- recordAttendanceByQR()
- recordAttendanceManually()
- generateAttendanceSummary()
- viewMemberDirectory()
- manageCommitteeTerm()
- createActivity()
- updateActivity()

Responsibilities

- View and verify membership applications
- Dismiss applications containing incorrect information
- Perform common committee administration
- View activities
- Record attendance
- Maintain committee term and access

Collaborative Classes

- UserAccount
- Member
- Activity
- FinancialManagement
- MediaPost

9.5 President

Attributes

- inherits ExecutiveCommitteeMember attributes
- oversightNotes

Methods

- reviewFinancialReport()
- reviewAttendanceSummary()
- viewOverdueMembers()
- takeActionForOverdueMembers()
- monitorCommitteeActivities()
- superviseClubOperations()

Responsibilities

- Supervise club operation
- Review organizational and financial summaries
- Review overdue members and take organizational action

Collaborative Classes

- ExecutiveCommitteeMember
- FinancialManagement
- Activity
- Member
- Treasurer
- Secretary

9.6 Secretary

Attributes

- inherits ExecutiveCommitteeMember attributes
- committeeRecords
- coordinatedSchedules

Methods

- maintainCommitteeRecord()
- coordinateSchedule()
- reviewAttendanceSummary()
- monitorAdministrativeActivities()

Responsibilities

- Maintain committee records
- Coordinate schedules
- Support organizational supervision

Collaborative Classes

- ExecutiveCommitteeMember
- President
- Activity

9.7 Treasurer

Attributes

- inherits ExecutiveCommitteeMember attributes
- managedFinancialRecords

Methods

- recordMembershipPayment()
- recordDonation()
- recordIncome()
- recordExpense()
- viewEventFinancialDetails()
- generateFinancialReport()
- identifyOverdueMemberships()

Responsibilities

- View membership applications through inherited committee behaviour
- Record accepted offline membership payments
- Record donations, income, and expenses
- View submitted event financial details
- Generate financial reports and identify overdue memberships

Collaborative Classes

- ExecutiveCommitteeMember
- Member
- FinancialManagement
- CulturalSecretary
- President
- Secretary

9.8 PublicitySecretary

Attributes

- inherits ExecutiveCommitteeMember attributes
- managedPosts

Methods

- createMediaPost()
- publishNotice()
- publishActivityMedia()
- updatePost()
- archivePost()
- setTargetAudience()

Responsibilities

- Publish official communication
- Manage activity media and visibility

Collaborative Classes

- ExecutiveCommitteeMember
- MediaPost
- Activity
- Event

9.9 CulturalSecretary

Attributes

- inherits ExecutiveCommitteeMember attributes
- managedEvents

Methods

- viewEvents()
- createEvent()
- updateEvent()
- openEventRegistration()
- closeEventRegistration()
- viewRegisteredMembers()
- submitEventFinancialDetails()
- requestEventPublicity()

Responsibilities

- Create cultural and special events
- Manage event registration and view registered members
- Submit event financial details to the Treasurer
- Request event publicity from the Publicity Secretary

Collaborative Classes

- ExecutiveCommitteeMember
- Event
- Treasurer
- PublicitySecretary

9.10 FieldEquipmentSecretary

Attributes

- inherits ExecutiveCommitteeMember attributes
- equipmentCatalogue
- availabilityRecords
- equipmentAssignments
- returnRecords

Methods

- addEquipment()
- updateEquipment()
- removeEquipment()
- checkAvailability()
- assignEquipment()
- recordReturn()

Responsibilities

- Maintain the equipment catalogue and availability
- Assign equipment to activities
- Record equipment returns

Collaborative Classes

- ExecutiveCommitteeMember
- Activity

9.11 Activity

Attributes

- activityId
- title
- activityDate
- startTime
- location
- status
- organizers
- participants
- attendanceEntries

Methods

- schedule()
- reschedule()
- cancel()
- addOrganizer()
- recordAttendance()
- generateAttendanceSummary()
- listParticipants()

Responsibilities

- Provide common activity schedule
- Maintain attendance and participants
- Support activity lifecycle

Collaborative Classes

- Member
- ExecutiveCommitteeMember
- MediaPost
- FinancialManagement

9.12 YogaSession

Attributes

- inherits Activity attributes
- instructor
- duration
- regularSession

Methods

- assignInstructor()
- openSession()
- closeSession()
- publishSessionSchedule()

Responsibilities

- Represent a scheduled yoga session
- Connect instructor and session schedule

Collaborative Classes

- Activity
- YogaInstructor
- Member

9.13 Event

Attributes

- inherits Activity attributes
- eventType
- description
- instructions
- registrationRequired
- registrationOpen
- registeredMembers
- participationInformation

Methods

- openRegistration()
- registerMember()
- removeRegistration()
- closeRegistration()
- publishParticipationInformation()
- listRegisteredMembers()

Responsibilities

- Represent cultural or special events
- Manage event registration
- Maintain participant information

Collaborative Classes

- Activity
- Member
- CulturalSecretary
- MediaPost
- FinancialManagement

9.14 FinancialManagement

Attributes

- membershipPayments
- donations
- incomeEntries
- expenseEntries
- currentBalance
- generatedReports

Methods

- recordPayment()
- recordDonation()
- recordIncome()
- recordExpense()
- calculateBalance()
- reconcileTransaction()
- generateFinancialReport()
- getPaymentHistory()
- getDonationHistory()
- identifyOverdueMemberships()

Responsibilities

- Maintain financial entries
- Calculate totals and balance
- Generate monthly and yearly reports

Collaborative Classes

- Member
- Treasurer
- President
- Secretary
- PaymentGateway
- Event

9.15 PaymentGateway

Attributes

- gatewayName
- supportedMethods
- availability
- transactionReferences
- lastGatewayResponse

Methods

- processPayment()
- verifyTransaction()
- confirmPayment()
- getTransactionStatus()
- mapGatewayResponse()

Responsibilities

- Connect to external payment facility
- Verify and confirm online payments

Collaborative Classes

- FinancialManagement
- Member

9.16 MediaPost

Attributes

- postId
- postType
- title
- body
- attachments
- visibility
- targetAudience
- publishDate
- relatedActivity
- archiveStatus

Methods

- create()
- update()
- publish()
- setAudience()
- attachMedia()
- archive()
- linkActivity()

Responsibilities

- Represent notices and activity media
- Control publication and audience
- Preserve previous posts

Collaborative Classes

- PublicitySecretary
- Activity
- Event
- Member

9.17 YogaContent

Attributes

- contentId
- contentType
- title
- instructions
- difficultyLevel
- risks
- precautions
- videoReference
- visibility
- approvalStatus
- author
- createdAt
- updatedAt

Methods

- create()
- update()
- addInstructions()
- setDifficulty()
- addRisk()
- addPrecaution()
- attachVideo()
- publish()
- search()

Responsibilities

- Store approved yoga knowledge
- Maintain instructions and safety information
- Provide searchable public or member content

Collaborative Classes

- YogaInstructor
- VajraAssistant
- Member

9.18 VajraAssistant

Attributes

- approvedContentSource
- currentQuestion
- interpretedTopic
- generatedAnswer
- suggestions
- safetyDisclaimer

Methods

- interpretQuestion()
- searchApprovedContent()
- generateAnswer()
- suggestRelatedContent()
- attachSafetyDisclaimer()
- clearConversationContext()

Responsibilities

- Answer yoga questions from approved content
- Recommend learning material
- Present safety guidance without diagnosis

Collaborative Classes

- YogaContent
- Member
- YogaInstructor

10. CRC Diagrams

Each diagram is reproduced from the approved PlantUML source in the CRC diagrams folder. Its classes, connections, layout intent, and collaborators are preserved; only relationship wording is aligned with the finalized workflows.
